COMPOSITION:

41% recycled polyester, 31% recycled cotton, 26% recycled polyamide, 2% spandex. Mid-calf socks, fully reinforced, with extra reinforcement at the toes, heel, and sole.

The entire structure is made of form-fitting Lycra.

The instep area is designed for optimal temperature regulation. The ribbed cuff features Comfort Plus technology, providing support without constriction.

100% recycled polyester made from plastic bottles, which wicks away moisture three times faster than other fibers.

100% recycled polyamide from discarded fishing nets, offering high strength and durability

100% post-industrial recycled cotton, OEKO-TEX and GRS certified.
