81009 INSOLE NEBULA ECO

Insole made from recycled materials.

Recycled foam waste is used in the manufacturing process, resulting in a sole made from over 80% recycled materials.

100% antistatic, electrical resistance < 1000 kΩ. Antibacterial treatment.

2D technology: combines two types of foam at the back of the sole, where the foot rests. Increases comfort, cushioning and stability, resulting in reduced fatigue.

Machine washable at 30°C

Abrasion resistance ≥ 25,600 dry cycles and 12,800 wet cycle.

Sizes: 35-48 EU / 2-13 UK
