EN UNE ISO 20345:2011

Description

Half knee safety boot, padded collar with polyurethane sole and antistatic nitrile rubber.

Upper

White full grain water repellent cowhide with a thickness of 2.0 - 2.2 mm.

Lining

Thinsulate® from 3M provides extreme cold insulation (-40°C) made from anti-allergic polyamide material, highly resistant to abrasion, absorption and drying of perspiration.

Insole

Foam material with textile support, ergonomic design according to biomechanical running patterns.

Outsole

Antistatic nitrile rubber sole, biomechanical and non-slip design, with anti-roll pads (anti-torsion system). Provides greater force absorption during the impact phase and stability of the footfall, uniformity of footfall and pronation control while walking. Low-density antistatic foamed polyurethane midsole with high shock absorption capacity. Provides thermal insulation.

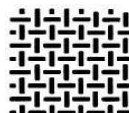

Toe cap: non-metallic, with impact resistance of 200 J.

Height: 275 mm $\pm$ 5% (Size 42)

Sizes: 35-48 EU/2-13 UK
