

## TIBURON S7L

S7L+CI+HI+HRO+FO+SR

EN UNE ISO 20345:2022

### Description

Low safety boot, padded collar and tongue, with polyurethane sole and nitrile rubber.

### Upper

High-tenacity, anti-allergenic main fabric with high abrasion resistance, moisture absorption and quick-drying properties. Lightweight, water-repellent and breathable material. Split nubuck in black with a thickness of 2.0 - 2.2 mm.

### Lining

Waterproof and breathable Gore-Tex®, dual component based on PTFE+PU.

### Insole

Anti-bacteria designed entirely by our Biomechanics Laboratory, with an ergonomic design according to the distribution of plantar pressures, arch support, retro capital support and confinement of the soft tissues of the heel, providing comfort, rest and absence of humidity inside the heel. footwear. Anti-bacteria, antistatic and breathable treatment.

### Outsole

Nitrile rubber sole, biomechanical, non-slip design with anti-tip pads (antitorsion system). Improves dynamic adaptation over previous model by at least 15% (half-foot torsion and torsion of metatarsals). Provides greater absorption of forces in impact phase, step stability/uniformity and pronation control while walking. Low-density antistatic foamed polyurethane midsole with high shock absorption capacity. Provides thermal insulation

**Protective insole:** textile, with perforation resistance >1.100 N.

**Toe cap:** non-metallic, with impact resistance of 200 J.

**Fastening system:** laces.

**Height:** 145 mm ± 5% (Size 42)

**Sizes:** 35-48 EU/2-13 UK
